Place Your Air Purifier

Seal the room: Close the windows and doors to prevent outside air from slowing down the purification process.

Maintain distance: Place your air purifier at least 1 foot away from the walls to ensure optimal airflow and purification.

Connect Your Air Purifier to Qubo App

1. Scan the QR code to download the Qubo App.
2. Sign up to create your account with Qubo.

3. Switch on your Smart Air Purifier.
4. Tap on the Menu.
5. Tap on 'Add Devices'.
6. After choosing the device's location, tap on 'Environment' and select Q1000.

7. Tap on 'Yes' if you see the white light blinking on the device. If you do not spot the light blinking, long press the 'Power button' for 10 seconds and reset the device.

8. The app will search for the air purifier via Bluetooth. Make sure your Bluetooth is turned on to discover the device.
9. After scanning, select 'Q1000' in the 'Add Device' section.
10. Name your air purifier and attach a location to it.

11. Enter your Wi-Fi ID and password. Make sure you are on a 2.4Ghz Wi-Fi network.
12. After setup is complete, tap on 'Continue'.

13. On successful authentication of Wi-Fi, your device will be connected to the app.

Know the Qubo App for Air Purifier

Know the Qubo App for Air Purifier

Feature	Description
Power Button	Switch on/off remotely via app
Auto mode	Automatically changes the fan speed based on PM2.5 pollutants in the room
Sleep Mode	Super silent air purification with turned display off for undisturbed sleep
Manual Mode	Manually change the fan speed of the air purifier to control purification in the room
QSensAI	Senses PM2.5 pollutants and automatically switches on & off the air purifier based on ambient air quality, ensuring efficient purification
Insights	Track indoor and outdoor PM2.5 levels and daily runtime. Use this data to schedule your air purifier usage for optimal performance and better indoor air quality control
Child Lock	With the Child Lock feature turned on via the Qubo App, you can disable all the physical buttons of your air purifier
Schedule	You can schedule your air purifier to fit your daily routine. Choose the days of the week, the time, and even the purifier's functions (like power, mode and fan speed) to suit your needs
Countdown	Set a timer for the air purifier to automatically turn off after 1, 2, 4, or 8 hours
Filter Life	Easily monitor the filter's health of your air purifier. Check its remaining life in percentage and hours, ensuring optimal performance and timely filter replacements

Know How to Change The Filter

1. Remove the Rear Panel

Use the rear handle to detach the rear panel from the purifier

2. Take Out the Filter

Pull the filter out using the ribbon attached to the filter and replace with new filter

3. Reattach the Rear Panel

Put the rear panel back in the slot and press the filter button for 5 seconds to indicate that the filter has been reset

4. Reset Filter Life from App

Select 'Reset Filter Life' in the Qubo App. The filter life will be updated and displayed as shown here. Your new filter is all set!

▲ Close the back panel properly otherwise the device will show an error.
